

Atrius energy Bahrain

What is Atrius sustainability & Atrius energy?

Product Line Spotlight: Atrius Sustainability and Atrius Energy enable teams to manage energy performance by giving deeper utility visibility at the building and portfolio level. Richer detail means more data to measure progress towards sustainability and cost-efficiency goals.

What is Atrius & how does it work?

Atrius offers an extensive suite of apps that turn outdated buildings into intelligent spaces and reshape how people experience them. Enable your buildings to sense, think, and act. Part of the Intelligent Spaces Group at Acuity Brands.

Why should you choose Atrius?

Reduce energy, embrace sustainability, unlock efficiency, and enhance experiences. Atrius transforms your building into an intelligent, responsive environment that benefits owners, operators, and occupants.

How can Atrius' energy help Weber State save money?

Automatically normalize data against weather or occupancy changes to compare building performance across locations. "Weber State has saved over \$2.3 million since 2020 using Atrius' Energy to identify, scope, and verify energy projects." Encourage occupants to reduce energy consumption by sharing dynamic storyboards across public screens.

What makes Atrius unique?

Atrius brings the best of our technologies into an integrated suite of products where the whole is greater than the sum of the parts. We are creating solutions that empower the built environment and deliver value in three key areas: building performance, enterprise operations, and personal experiences.

How can Atrius help reduce energy consumption?

Encourage occupants to reduce energy consumption by sharing dynamic storyboards across public screens. "Atrius makes energy and emissions data readily accessible to faculty, students, and consultants who appreciate the intuitive, user-friendly format." Ready for a deeper dive?

Centralize energy data from disparate sources. Atrius Sustainability. Automated carbon accounting and reporting. Atrius Facilities. Cloud-based building management at scale. SPATIAL INTELLIGENCE.
