

Bluetti solar home system Belize

What is bluetti solar +?

BLUETTI Solar + is an innovative and cost-effective solution for integrating both solar and battery systems into your home at a price comparable to what our competitors charge for solar alone. We understand that the key to unlocking substantial long-term savings with solar lies in the effective combination of solar panels and battery storage.

Is bluetti solar + suitable for apartments or condos?

BLUETTI Solar + is ideal for houses that receive direct sunlight. Unfortunately, it's not suitable for apartments or condos. The system's compatibility also depends on the specific conditions of your roof. For more detailed information and to determine if your home is a good fit, we recommend consulting with our energy experts.

Why did Jan Leo buy the bluetti ESS?

Jan Leo purchased the BLUETTI ESS in response to the excess solar energy generated by his system. Seeking a solution for efficient energy storage, he was drawn to its modular design, affordability, and built-in backup power. Leo aims to optimize self-consumption, reduce reliance on the grid, and enhance his sustainability efforts.

Why should you choose bluetti ESS?

Here, the protagonist opts for BLUETTI ESS due to its easy installation, scalability, and modern design. With a yearly consumption of 3,500-4,500 kWh, the system ensures uninterrupted power for their business, reducing costs and promoting sustainable energy utilization. Get an accurate solar model for your home's roof in 2 minutes.

Why did Ray David invest in bluetti ESS?

Mr. Ray David, a 44-year-old entrepreneur, invested in BLUETTI ESS to combat rising electricity costs. His 160 m² home now operates independently, utilizing expandable storage capacity, reducing reliance on the grid. The protagonist, a homeowner, invests in BLUETTI ESS for energy independence.

What does a bluetti site technician do?

A BLUETTI site technician will review the design and handle the permitting and paperwork with the city. We'll let you know when everything is good to go. The installation takes about a day. Once completed, we'll schedule the city inspection. We work with your utility to get everything connected.
