Is Bonaire a sustainable island?

Bonaire, a Caribbean island grappling with distinctive energy challenges stemming from its geography, population growth, and socio-economic disparities, has exhibited notable progress in transitioning from fossil fuels to renewable energy sources. Despite heavily relying on non-renewable energy, Bonaire is committed to enhancing sustainability.

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

How much does energy cost in Bonaire?

This profile provides a snapshot of the energy landscape of Bonaire, a special municipality of the Kingdom of the Netherlands located on the coast of Venezuela. Bonaire's utility rates are approximately \$0.35 per kilowatt-hour (kWh), above the Caribbean regional average of \$0.33/kWh.

How does Bonaire's electricity system work?

Presently, Bonaire's electricity grid operates autonomously, with 30% of its energy derived from renewable sources. The forthcoming decommissioning of the Morotin offshore wind farm by 2025 has catalysed collaborative efforts with stakeholders such as WEB, CGB, and BBT to devise an electrical system roadmap.

Does Bonaire have a regulated electricity sector?

In recent years, the Ministry of Economic Affairs in the Netherlands has been active in reforming the regulation of the electricity sector in Bonaire, both in terms of utility regulation and expanding generator access.<sup>13</sup>

Does Bonaire have a utility company?

The utility company for Bonaire is Water-En Energiebedrijf Bonaire N.V. (WEB), which supplies both water and electricity to the island. WEB is a government-owned entity and is strictly a distribution utility, owning no generation of its own.
