Solyrk VI provides integrated battery systems that stores your solar and grid energy for backup protection when the grid goes down. A great alternative to traditional generators, especially when you have limited outdoor space.

One increasingly popular solution is the use of solar batteries. By using inverter solar batteries to store excess solar energy during the day and then use it at night or during power outages, property owners can significantly reduce their dependence on the grid and their utility bills. And the benefits don't end there.
