

<div class="df_qntext">How has the energy sector changed in Egypt?

The energy sector in Egypt witnessed key changes including the gradual lifting of government subsidies on traditional fuels and the introduction of a number of legislative reforms as well as incentives and favorable policies to promote and develop renewable energy projects.

<div class="df_qntext">Is the IPP model applicable in Egypt?

The IPP model is not currently applicable in Egypt, however, such model should be implemented during the gradual opening of the electricity market in Egypt to ensure that it is competitive. II. Solar PV Self-Consumption Projects

<div class="df_qntext">What is the feed-in tariff program in Egypt?

In 2014, the Egyptian Government launched the feed-in tariff program ("FIT Program") to generate 4.3GW electricity from renewable energy, 2,300MW from solar and 2,000MW from wind. Eligible developers are required to establish a project company in the form of a joint stock company with a minimum capital of EGP 15 million.

<div class="df_qntext">Can fit projects acquire renewable assets in Egypt?

Although there is no general constraint on acquiring renewable assets in Egypt, FIT projects are particularly subject to certain constraints on its acquisition for a period of 2 years following the commercial operation date ("COD") of the project.

<div class="df_qntext">How does Egypt regulate solar self-consumption plants?

Egypt ERA issued Circular No. 3 for 2023 to regulate the licensing procedures and requirements for solar self-consumption plants ("Regulations"). The solar self-consumption system allows the use of the PV electricity generated on-site to meet the energy needs of the consumer but does not exchange the generated electricity with the grid.

<div class="df_qntext">What are Egypt's rules for FIT companies?

According to Egypt ERA Rules for FIT Companies, the major shareholder is required to maintain a minimum shareholding percentage of 25% in the project company until the lapse of 2 years after the COD. The investor is also obliged to notify Egypt ERA of any amendment in the shareholders' structure of the FIT company. 4. Independent Power Producer

Over the past decade, global installed capacity of solar photovoltaic (PV) has dramatically increased as part of a shift from fossil fuels towards reliable, clean, efficient and sustainable fuels (Kousksou et al., ...

How are Egypt's solar players being impacted by the commodities boom? 2021 has seen global commodities prices soar to record highs on pent-up post-lockdown ...
