

Cambodia leclanche energy storage

What is Leclanch's modular battery storage solution?

Aimed at reducing the cost, complexity and environmental footprint of stationary energy storage system (ESS) installations, Leclanch has launched a modular battery storage solution based on easily transportable, plug and play racks that can be put together onsite.

What is Leclanch's new modular energy storage system?

Cost, complexity and carbon footprint. Earlier this month, Switzerland-headquartered Leclanch launched its new, modular energy storage system solution aimed at reducing all three of these challenging points for the industry.

Who is Leclanch's?

Leclanch SA is a world leading provider of high-quality energy storage solutions based on lithium-ion cell technology. We are committed to accelerating our progress towards a cleaner energy future. We have over 100 years of battery and energy storage innovation, powered by German engineering and Swiss quality.

What is Leclanch's E-transport solutions?

Leclanch's e-Transport Solutions team powers the electrification of transport (trains, vessels, trucks and more) through efficient, proven and reliable energy storage solutions. This group creates custom low-voltage battery systems for a wide range of demanding applications.

Is Leclanch a publicly traded company?

Leclanch is the only publicly traded, pure play energy storage company in the world, and is listed on the Swiss Stock Exchange. Discover a selection of our customers and projects in Stationary Solutions, eTransport Solutions and Specialty Battery System. Our core technology expertise ranges from electrochemistry to energy management software.

What's new at Leclanch's?

Leclanch is reorganizing itself to become a green tech software and systems integration company with expanded production and R&D capabilities. Our core operating units consist of Stationary Solutions, e-Transport Solutions and Special Battery Systems while an independent,

Rome/Berlin, May 16 th, 2019 - Today, Enel's subsidiary Enel Green Power Germany (EGP Germany), the German renewable energy company ENERTRAG and the Switzerland-based energy storage solutions company Leclanch inaugurated the 22 MW Cremzow Battery Energy Storage System (BESS), located in Cremzow, in the German state of Brandenburg.

Aimed at reducing the cost, complexity and environmental footprint of stationary energy storage system (ESS) installations, Leclanch has launched a modular battery storage solution based on easily transportable,
