

Ceec energy Tokelau

Where does Tokelau get its electricity from?

Except for that part of the electricity supply provided by Solar Photovoltaic (PV) to TeleTok facilities on all three atolls and the University of the South Pacific (USP) facility on Atafu, essentially all energy in Tokelau currently is from imported petroleum.

What is Tokelau's energy policy?

The primary focus of the policy is the desire of Tokelau to become self-reliant in energy through a combination of renewable energy and energy efficiency measures.

What does CEEC stand for?

Lost your password? The Continental Europe Energy Council (CEEC) is a group of companies with upstream oil and gas assets within the Central-Eastern Europe and Caspian area which aims to keep the regional oil and gas community connected. The Group started its activity in 1994, with eight founding members.

What is the Tokelau PV project?

The Government of Tokelau sees the PV Project as the first step and therefore trial towards the long-term goal of energy independence based on renewable energy. The project is implemented by the Government of Tokelau and funded jointly by Government of New Zealand, Government of France, UNESCO Apia and UNDP Samoa.

Does Tokelau have access to non-New Zealand capital funding?

Currently Tokelau has limited access to non-New Zealand capital funding. To assist addressing the energy sector issues in year 2004 the first ever Tokelau National Energy Policy and Strategic Action Planning (NEPSAP) was developed and approved after extensive preparation and consultations.

What is a CEEC meeting?

The CEEC meetings represent a key event in the petroleum business in Central Europe with a two and a half-day program. The CEEC provides an excellent way to network, to exchange experiences with other operators in Europe, to learn about operations in the field and about the European geology. It is also an important farm-out forum.

CEEC CEO Alison Keogh said development of the energy curves was now entering an exciting, new phase. "The new team brings a wealth of experience and diverse skills and perspectives to enable further development of the energy curves in response to the needs of the mining industry," she said.

CEEC International has released its Annual Report for the 2023-24 financial year, which includes updates on CEEC's activities and events from the year. [Download file Categories](#)
