

Celgard 2500 Christmas Island

What makes Celgard unique?

With more than 50 years of market-leading research, development, and manufacturing, Celgard delivers highly engineered products with proven quality and performance.

What makes Celgard's membranes unique?

The unique polyolefin molecular properties created by our patented dry-stretch manufacturing process also make Celgard's membranes ideally suited for several barrier-type applications.

Is Celgard a trademark?

CELGARD and the CELGARD LOGO are trademarks of CELGARD, LLC. © 2021 CELGARD, LLC. All Rights Reserved. 10/21 Item #20003 Please download an updated version of this document at after 10/31/23.

Is Celgard liable for infringement of patents?

However, neither CELGARD, LLC nor any of its affiliates assumes any liability whatsoever for the accuracy or completeness of this information. Final determination of the suitability of any material and whether there is any infringement of patents is the sole responsibility of the user.

Celgard's 2500. 25µm Monolayer Microporous Membrane (PP) Primary Applications . High Power Lithium Battery Systems; especially performance-critical applications. Product Benefits Zero TD shrinkage reduces internal ...

At first sight, Celgard 2500 and utPE (Figure S9, Supporting Information) seem to show similar lithium deposition morphologies. However, close examination shows that the lithium dendrite fibrils are significantly ...
