This set of cables includes everything you'll need to connect additional RHINO 2 batteries in parallel. Connecting a battery in parallel is when you connect two or more batteries together to increase the amp-hour capacity. With a parallel battery connection the capacity will increase, however the battery voltage will remain the same. Use these parallel cables to add another ...

BigBattery's 48V 15 kWh LiFePO4 KONG Elite battery is our best selling solar and off-grid solution. Whether you're creating a huge solar system, taking your home or cabin off-grid, or just looking for a wealth of emergency power, this unit is the answer. The KONG Elite comes equipped with our advanced BMS, which affords it a wide ...

However, I'm beginning to think I don't want to support Californian companies any more than Chinese ones, but that's a whole other topic. You're correct that their charge and discharge rates are relatively low, but I want a large bank so that individual batteries can discharge and charge slowly anyway, so if they can discharge at 15A/each but do it all night I'm happy.
