[0-80% in 45 Mins] - 2400W AC charging input makes AC240 from 0-80% in 45 minutes. With 1200W solar input, power full in 1.8-2.3 hours. It also supports ...

Better than the loud, smelly generator I was using. Critical feedback most often involves inaccurate runtime estimates or units arriving with defective components. But Bluetti's standard 2 year warranty covers replacement parts in these cases.

It also supports car/AC+DC/generator/lead-acid battery charging. [From 1.5KWh to 10KWh] - AC240 powers home appliances with 1536Wh capacity and 2400W output. Add up to 4 B210 batteries to reach 10,136Wh, ensuring uninterrupted power for outdoors or power failures.

1. The generator's AC output voltage, and frequency should be within the range of AC300. 2. If the maximum output power of the generator can't meet the AC300's AC maximum input power, AC300 can reduce the AC maximum input current to lower the AC maximum input power. 3. The output of the generator should be sine wave.
