

Homeowners across Afghanistan are set to benefit from the country's first pay-as-you-go (PAYG) home solar systems combined with energy storage batteries, being delivered in a pioneering new programme.

Solar resource (GHI, DNI, DIF, GTI, OPTA), PV power potential (PVOUT) and other parameters are provided in the form of raster (gridded) data in two formats: GeoTIFF and AAIGRID (Esri ASCII Grid). Provided data layers are in a geographic spatial reference (). Metadata is provided in PDF and XML format for each data layer in a download file (according to ISO ...

The Republic of the Congo has signed a deal with Dubai-based renewable energy company AMEA Power for the construction of a 100 MW solar PV facility.. The deal was signed by Congolese Minister of Energy and Hydraulics Émile Quosso and AMEA Power Chairman Hussain Al Nowais.

India's Soleos Energy, in partnership with Melci Holdings, has started building a 200 MW solar park in the Democratic Republic of the Congo (DRC). The project is set for commissioning by late 2026.

The electrification rate of the Democratic Republic of Congo (DRC) is very low despite its impressive hydroelectric potential. But, it is hard to imagine that the Congolese national company of electricity could improve this rate in the next five or ten years only by building electrical infrastructure. Building electrical infrastructure requires a big capital that neither this company ...

Congo-Brazzaville Solar PV Project is a 100MW solar PV power project. It is planned in Brazzaville, Republic of the Congo. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage.

This June we went to Congo to install a Solar Cow system in the name of LG.As always the experience was very special for us. We hope you can follow our journ...

Discover the \$200 million solar energy project in the Democratic Republic of Congo. Soleos Energy and Melci Holdings are collaborating to bring clean electricity to over a million people.
