Abstract: This paper provides an overview on the state of Municipal Solid Waste Management (MSWM) in Lubumbashi, D.R Congo. To meet the

Alexis Gisaro Muvuni, state minister for Infrastructure and Public Works of the Democratic Republic of the Congo (DRC), said Thursday that he was impressed by the techniques witnessed at the Busanga hydroelectric plant in the southeastern province of Lualaba. The DRC and the Chinese side should further promote investment in electricity and infrastructure, and unleash ...

State utility Sociéte Nationale d'Electricité (Snel) aims to improve its dire financial situation by increasing the number of prepaid meters. An initial scheme in 1990 failed because Snel acquired 6,000 meters but no management system, and then staff who had been trained to install and check them left the company. Another project was launched in 2011, with ...

The DR Congo has never developed a functional institutional framework or established suitable policies capable of protecting its rich (and one of earth's most precious) ecosystems. The DR Congo has the world's second-largest rainforest, accounting for 18% of the planet's remaining tropical rainforest.

Lubumbashi's economic vitality has led to rapid demographic growth, with a population exceeding 3 million and an annual urbanization rate above 5 % (Remon and Nkuku, 2006). This growth has increased housing demand, leading to unplanned settlements and higher density in planned areas (Useni et al., 2018). The city faces challenges related to rapid ...

The president of the Democratic Republic of Congo has announced the establishment of an agency for natural disaster management and prevention following a volcano eruption last month that claimed ...

Auguy Bakome. Since our establishment, Congo Sun is becoming a leading supplier of solar systems in DR Congo. Our partners Bakko SA and EGS Energy Solutions draw along track record of solar installations in South Africa and DR Congo ...
