

Dulas solar Ireland

Who is Dulas solar?

As a leader in solar since 1982, Dulas is well-placed to support the successful development of solar photovoltaic (PV) projects. Our experienced solar energy consultant can guide clients through the full development, construction, and operational lifecycle.

Who is Dulas Ltd?

Dulas Ltd | 3,600 followers on LinkedIn. Pioneers in renewable energy and temperature controlled equipment for life sciences. | With over 35 years of experience in the clean energy sector, Dulas is an award-winning renewable energy installer and consultancy, specialising in the wind, solar and hydro sectors.

Who are Dulas?

Dulas's designers, planners and project EIA consultants have helped clients to successfully develop solar projects across the UK and Ireland, with a combined capacity of more than 250MW. Dulas offers an in-house technical design and optimisation service for solar PV projects.

Does Dulas offer a technical design & optimisation service?

Dulas offers an in-house technical design and optimisation service for solar PV projects. Solar projects in the subsidy-free era require a design approach that is highly focused on satisfying the underlying business model.

What services does Dulas offer?

Dulas has comprehensive experience of working with major wind farm developers in the UK, Republic of Ireland and internationally. We offer a variety of services including wind monitoring, data collection, feasibility studies, repowering and extension advice, helping to ensure that every wind scheme is successful and profitable.

What makes Dulas unique?

Since the outset of our mission to apply renewable energy to pressing humanitarian needs, Dulas has pioneered and developed cutting-edge technology, and we continue to do so today.
