

# Electrawise energy Cabo Verde

In the 1950s, solar panels work only for the rich because installing one is incredibly expensive. Today, solar panels are more than 500 times cheaper to install and manufacture. Solar technology is relatively getting cheaper as compared to other options with the average price of a 5kW system starting at \$5100 across Australian capital cities.

I am genuinely curious about how an electricity saving device that you plug into an outlet to optimize the energy flow, works? There is a huge debate and people saying it's just a box with led lights or a scam. But I purchased 3 linked below; and saw my electricity bill go from over \$250-\$350 a month to just \$47.88 this past billing cycle ...
