Why did Isle of Man energy change its name?

Aidan Baglow said the name change to Isle of Man Energy reflected a change in direction to include alternatives to natural gas. He said it also showed support for the island's move to net-zero emissions. It follows a 43.9% price hike for customers due to global volatility in the wholesale gas market.

Does the Isle of Man import energy from the UK?

The Isle of Man currently imports all of its energy from the UK (with the exception of what is produced from Sulby). In all future models, the Isle of Man remains dependent on GB for the provision of baseload. This is the case even where capacity is increased by building excess renewables, as the stabilisation is still provided by interconnectors.
