Who is Enphase Energy?

About Enphase Energy, Inc. Enphase Energy, a global energy technology company based in Fremont, CA, is the world's leading supplier of microinverter-based solar and battery systems that enable people to harness the sun to make, use, save, and sell their own power--and control it all with a smart mobile app.

What makes Enphase a great company?

Enphase is putting people and their power at the center of our shared energy future. Our company values show up in how we work together, how we perform, and how we all get rewarded. We listen to our customers and measure our success based on their feedback. We take action to deliver the best customer experience.

How many microinverters have Enphase installed?

We have installed more than 52 million microinverters on over 2.7 million homes in over 145 countries, helping millions of people gain access to clean, affordable, and reliable energy while creating good jobs and a more carbon-free future for everyone. Enphase is putting people and their power at the center of our shared energy future.

Are Enphase solar panels a good idea?

Today, if you see a home with solar panels on it, there's a good chance it's an Enphase home. We have installed more than 52 million microinverters on over 2.7 million homes in over 145 countries, helping millions of people gain access to clean, affordable, and reliable energy while creating good jobs and a more carbon-free future for everyone.

Which countries has Enphase entered the solar market?

Enphase has also entered the solar markets in Bulgaria, Estonia, Slovakia, and Croatia for the first time with the introduction of three microinverters - IQ8MC(TM), IQ8AC(TM), and IQ8HC(TM) - featuring a peak output power of 330 W, 366 W, and 384 W, respectively.

When did Enphase start selling microinverters?

Enphase raised \$6 million in private equity, and in 2008, released its first microinverter, the M175. Their second generation product, 2009's M190, had sales of about 400,000 units in 2009 and early 2010. Enphase grew to 13% marketshare for residential systems by mid-2010.

Founded in 2006, Enphase transformed the solar industry with our revolutionary microinverter technology, which turns sunlight into a safe, reliable, resilient, and scalable source of energy to power our lives.

At Enphase, we think big. We're on a mission to bring solar energy to the next level, one where it's ready to meet the energy demands of an entire globe. As we work towards our vision for a solar-powered planet, we never lose sight of the three commitments that have guided us from the beginning: innovation, quality, and responsibility.
