Was working for a week and a half with 1 range session and the battery completely crapped out on me. Changed the battery and it still did not turn on. I tested both batteries with a voltage meter and both batteries read to be fully juiced. I sent the EPS Carry right back to Optics Planet and do not plan on purchasing another one.

I have never lost an optic battery screw before and when it happened the battery, battery tray and screw went flying. I looked everywhere for the screw, could not find it and was done shooting for the day. This is a ...

RosAtom that acquired Enertech is a state atomic energy corporation from Russia and it plans to convert 40% of its sales to eco-friendly business that includes ESS. A ...

Holosun EPS battery life . Question I know this has been previously discussed but just looking for some more info and updates. I have an EPS on my duty gun and carry it 7 days a week for about 8-12 hours a day on brightness setting 11/12 or 12/12. Auto shut-off is still on and working. I changed the battery to a new Duracell and it lasted about ...

Can anyone provide some feedback on how long battery life is for an EPS? I'm considering ordering a red 6 MOA, and I typically like to leave optics on 2-3 settings below max brightness. I have read mixed reports that battery life is often less than a year, which would not be ideal. Locked post. New comments cannot be posted.

Advanced features produce safer battery systems resulting in a perfect safety record in field. Boeing and
