

## Eritrea logic energy

Where can I find information about energy in Eritrea?

You can find information on energy production, total primary energy supply, electricity consumption, and CO2 emissions for Eritrea on the IEA homepage. For data on energy access (access to electricity, access to clean cooking, renewable energy, and energy efficiency) in Eritrea, visit the Tracking SDG7 homepage.

What is energy access & energy security in Eritrea?

The document "Enhancing Energy Access and Energy Security in Eritrea" (2014) defines the long term objective to improve living standards through development and the principles for the development of the energy sector.

Does Eritrea have an interconnected energy system?

Only for the interconnected system covering Massawa, Asmara, Keren, Mendefera, Dekemhare and part of southern Asmara, according to the data of Eritrea Electricity Corporation (EEC) presented in the "Enhancing Energy Access and Energy Security in Eritrea", report (Department of Energy, 17/1/2014).

Does Eritrea need a national power development master plan?

At the moment ERC operates under the mandate of the Department of Energy in the Ministry of Energy and Mines. The document "Enhancing energy access and energy security in Eritrea" (2014), includes a number of new power plants additions but a National Power Development Master plan does not exist and is urgently needed.

What is the relationship between energy and development in Eritrea?

The energy-development relationship has numerous social and political implications in Eritrea, where access to modern energy services is still very low and where about 66% of the population lives below the poverty line .

Where can I find information on renewable power capacity & generation of Eritrea?

You can find information on the renewable power capacity and generation in Eritrea on the homepage of IRENA.org. Climatescope 2019 lists the clean energy policies and investments for Eritrea.
