producentów swiatowych oraz firma serwisowa z zakresu urzadzen do zasilania. Zapraszamy do skorzystania z naszej oferty i mozliwosci naszej firmy.

We manufacture a wide array of new transformers, such as those up to 525kV class, generator step-up transformers up to 500MVA, network transformers and autotransformers up to 500MVA, core type furnace transformers and special-type transformers. There is more than meets the eye than just new transformer manufacturing.

Geothermal energy is a rising star in the global effort to reduce emissions, ensure energy security, and boost economies. According to Donald Leger, Manager for Steam Turbine Application Engineering at EthosEnergy, a comprehensive suite of solutions and technology is essential to fully harness this potential.

Focusing on the needs of SMUD, we designed a solution to focus on the efficient operation of the facilities. This solution included the application of our full service facility performance management technology and on-site performance engineering support to SMUD's entire thermal generation fleet of assets, focused on extracting more value from their assets.

Unser Ethos ist unser Fundament, der Fels, auf dem wir unser Unternehmen aufgebaut haben. Es kennzeichnet, wer wir sind und was wir tun, und noch besser: Alle fünf Elemente wurden von unseren Mitarbeitern ausgewählt und definiert. Wir leben und demonstrieren unser Ethos untereinander, mit unseren Kunden und in unseren Gemeinden.

Within Ethos House, sits many of our EH leadership teammates, along with HR, Finance, IT and Marketing. EthosEnergy have two additional facilities in Aberdeen, including our Accessories and Components workshop, and our Light Turbines workshop, both located in Dyce, Aberdeen.
