

Georgia american lithium energy corp

What is American Lithium Energy?

American Lithium Energy (ALE) is shipping the world's highest energy density silicon-based lithium-ion batteries with industry best safety and zero-volt stability. Existing lithium battery technologies cannot meet the rapidly growing demand for more powerful, longer-lasting, smaller, and safer batteries.

Where is American lithium located?

Its properties include the TLC Lithium Project located in the town of Tonopah, Nevada; and the Falchani Lithium project and the Macusani Uranium project located in Puno, Peru. The company was formerly known as Menika Mining Ltd. and changed its name to American Lithium Corp. in April 2016.

What is Lithium Americas Corp?

Lithium Americas Corp. is a Canadian publicly listed company with two advanced-stage lithium development projects, in Argentina and Nevada, USA.

What does American lithium do?

American Lithium Corp., an exploration and development stage company, engages in the acquisition, exploration, and development of mineral properties in North and South America.

What role does American lithium play in society's new energy paradigm?

Playing a key role in society's shift to a secure, sustainable new energy paradigm. American Lithium is well-positioned to play a key role in society's shift to a secure, sustainable new energy paradigm in the Americas. In the US, the company owns the TLC claystone lithium deposit, which is in close proximity to the Tesla giga-factory in Nevada.

Why should you invest in American Lithium Corporation?

American Lithium Corporation is well-positioned to play a key role in society's shift to a secure, sustainable new energy paradigm in the Americas. The company's near-term focus on mining-friendly jurisdictions gives it the advantage of both geographic and geological diversity in developing world-class, scalable projects.
