

Georgia energy toolbase

What is energy toolbase?

Energy Toolbase is an industry-leading software platform that provides a cohesive suite of project modeling, storage control, and asset monitoring products that enable solar and storage developers to deploy projects more efficiently.

Is Georgia a good source of energy?

Georgia is one of the largest timber producers in the country. Georgia's landscape has 24.6 million acres of forest, and 23.9 million of those acres are available for commercial usage.²⁴ Logging waste, such as wood chips, saw dust, and pellets, that would otherwise be released to landfills is now a viable source of energy. Biomass energy production

What is the Georgia State Energy Program (SEP)?

The State Energy Program (SEP) provides financial assistance and technical support to Georgia's energy efficiency and renewable energy programs.

Tables & Graphs of "ETB Analytics":
Monthly Electricity Costs: displays a 12-month summary table of electricity costs. You can select which rate schedule option, as well as several other values to display.
Demand Profile Visualization: an interactive charting environment that allows users to visualize and interact with their customer's interval data, including usage data, solar ...

Energy Toolbase is backed by its parent company, Pason Systems, a leading global provider of data management systems and controls automation software for the energy industry. With a global footprint and 40 ...

In this month's newsletter, we take a deep dive into Georgia Power's net metering (NEM) changes, rate increases, and future updates. We also highlight a new popular global rate available for LUMA Energy users in Puerto Rico, and we explain an increasingly common charge type that we utilize in our rates. Georgia Power NEM Changes and Rate ...

Experience: Energy Toolbase · Education: Georgia Institute of Technology · Location: United States · 207 connections on LinkedIn. View Logan Lambert's profile on LinkedIn, a professional ...

Here's a video tutorial of Creating a New Proposal from scratch (in under 8 minutes). You can create a new "Proposal" from the "Proposal" drop-down menu on the top navigation menu from anywhere on ...

To download proposal data, click the blue download button on the top right of the General Information portlet on the "Edit Proposal" page. This will bring you to the "Download Proposal Data" modal, where you can download all of your proposal data or specify the interval data type you would like to download.

Georgia energy toolbase

Copy and paste the data into Energy Toolbase, matching up the correct timestamp, units, and starting date of the data. Green Button Data - XML & CSV: Interval data can also come from XML or CSV files imported from "Green ...

The State Energy Program (SEP) provides financial assistance and technical support to Georgia's energy efficiency and renewable energy programs. Funded by the U.S. Department of Energy, the SEP supports energy programs in the areas of agriculture and industry, building energy efficiency, government and public facilities, and renewable energy ...

Energy Toolbase is where you can get in on something big. We're fast-growing and continue to add to our team as we expand our product offerings throughout the solar + storage market and beyond. We just surpassed 75 employees and counting. The industry is growing rapidly, and we want people to help us continue to grow with it. ...

Copy and paste the data into Energy Toolbase, matching up the correct timestamp, units, and starting date of the data. Green Button Data - XML & CSV: Interval data can also come from XML or CSV files imported from "Green Button Data." If you have Green Button Data, upload the file to Energy Toolbase through the Green Button Data Icon.

Learn how to create a web proposal here.. Web Proposals in ETB Developer offer a powerful way for users to enhance their client interactions by creating a unified and organized collection of proposal designs.

Market Specific Resources: Educational Market specific content focused on key topics to help you maximize your use of Energy Toolbase. Live Webinars: Interactive, live training sessions that dive deep into specific features or topics. All of our Education & Support resources are fully searchable via the Help Center search bar. We regularly ...

Energy Toolbase - ETB Developer Demo Webinar. Dec 10, 2024. ETB Developer - New User Training Session. Dec 11, 2024. Navigating the 2025 California Solar + Energy Storage Market: The Key Updates and Accurately Modeling them with Energy Toolbase. Newsletter. Get our content straight to your inbox.

Energy Toolbase and Stellar Solar Commercial have partnered to implement an advanced energy management solution at a 23-acre transportation terminal Read More Lindsey Paulk September 26, 2024 Energy Storage. Introducing ETB Controller: A New Era for Energy Storage Controls at Energy Toolbase We are excited to announce a rebranding of Acumen ...

It's crucial to upload these as well, as they allow us to accurately account for generation costs from your energy retailer. Interval Data. 15, 30, or 60-Minute Interval Data: Interval data helps us analyze your energy consumption patterns. If available, upload your interval data in 15, 30, or 60-minute formats.

Georgia energy toolbase

This month we cover the Georgia market. Webinar topics include: - A breakdown of the components of real-life examples and bill samples. - A deep dive into the various charge types utilized by electric companies in specific territories. - A look out how to configure NEM in the Energy Use Profile according to certain utility policies.

This month, we cover updates to Georgia Power and Con Edison, highlight significant rate increases for Eskom customers in South Africa, and explain what rate adjustments are and how we include them in our rate ...

The State Energy Program (SEP) provides financial assistance and technical support to Georgia's energy efficiency and renewable energy programs. Funded by the U.S. Department of Energy, the SEP supports energy programs in the ...

GenPro Energy Solutions, an energy provider based in Piedmont, South Dakota, has been using Energy Toolbase's modeling software, ETB Developer, for over seven years to design solar projects and calculate ...

This month, we cover updates to Georgia Power and Con Edison, highlight significant rate increases for Eskom customers in South Africa, and explain what rate adjustments are and how we include them in our rate schedules. ...

To add or remove a user license, click "Payment & Subscription" in the user dropdown on the top right side of the navigation bar. On the Payment & Subscription page, click any hyperlink in the "Subscription Information" section to open the "Edit Subscription Information" modal.

Variables the "Storage Capacity Optimizer" references: Energy Toolbase runs each ESS simulation independently, referencing the following variables: Energy Use Profile: usage data & metering specifications. Control Settings Info: selected control strategies (i.e., Peak Demand Shaving) and any restrictions (i.e., ESS Charge from PV only). Utility rate schedules: both ...

Energy Toolbase, Inc. prescribes a standard CT wiring convention at the eGauge terminal block. This will enable an efficient and streamlined commissioning process. For a clean wiring convention, phases A, B, and C should correspond to sequentially increasing terminal connections on the eGauge unit (e.g. A=1, B=2, C=3). Following this specific ...

Our Storage Capacity Optimizer provides you with a great deal of information on the value proposition of Energy Storage. It helps determine which battery is the best to include in a given proposal. The Storage Capacity Optimizer can run in 2 modes:

Energy Toolbase's SaaS products are used by over 1,500 distributed energy organizations worldwide. Energy Toolbase is backed by its parent company, Pason Systems, a leading global provider of data ...
