

Greenfield solar Mozambique

What is Globeleq's first greenfield project in Mozambique?

The US\$36 million Cuamba Solar plant is also Globeleq's first greenfield project in Mozambique and the Group's first combined solar and storage plant in its operating portfolio.

What is Mozambique's new energy grid?

Located in Niassa province, one of Mozambique's most underserved provinces with an electrification rate of just over 20 per cent, the \$36 million project will provide clean energy to 18,000 households and support the creation of local jobs. The project marks a significant milestone as the first IPP grid-scale storage plant in sub-Saharan Africa.

What is Cuamba solar power plant?

"The Cuamba Solar Power Plant project aims to increase energy availability in the country through both public and private investments, with growing contribution from renewable energy sources; and addresses a strategic objective outlined in the Government's Five-Year Programme.

What does EDM's project mean for Mozambicans?

EDM's Chairman, Marcelino Gildo Alberto observed: " This project represents a demonstration of the company's effort in the search for sustainable solutions to accelerate access to energy for Mozambicans in a sustainable and accessible way.

What does EDM do in Mozambique?

EDM is the central buyer of electricity, system operator, manager of the notational transmission grid and operator of the energy distribution infrastructure in Mozambique. EDM generates, transmits, distributes, and sells electricity in Mozambique.

Foresight Group has formed a joint venture (JV) with UK solar developer Island Green Power to develop a pipeline of nearly 700MW of greenfield solar projects. The pair are aiming to develop five subsidy-free solar PV projects across England and Wales, helping to support the UK's transition to a zero carbon economy by 2050. ...
