The Beyonder is the beyond-all and end-all of all things, striven on occasion to be both mankind's greatest savior and threat, in a quest to better understand human nature.

Siva - The Industrial Development Corporation of Norway is the new owner of the Beyonder-building, located outside Stavanger, Norway. The sale further strengthens Beyonder's ability to raise capital and is set to enhance Norway's position in the European battery value chain. Unlocking c

Beyonder's battery technology is produced using ecological materials such as renewable energy and sawdust. With its clever combination of a Li-ion cell and a Li-ion capacitor it perfectly suits many applications. The batteries are non-flammable and can be fully charged in two minutes and recharged up to 100 000 times, thus reducing the need for frequent replacement of batteries.

Beyonder jobber nå med å tiltrekke seg flere investorer for å videreutvikle selskapet. Den viktigste effekten av Sivas investering for dem, er på deres prosess for kapitalinnhenting, sier Jørstad. Beyonder har i dag utviklet produkter, har tilgang på kommersiell storskala produksjonskapasitet og har mottatt sin første skalaordre.
