

Guam eliiy power

Does Guam have electricity?

About four-fifths of Guam's electricity generating capacity runs on fossil fuels and the rest is fueled by renewables. The Guam Power Authority(GPA),a public corporation overseen by the elected Consolidated Commission on Utilities (CCU) and regulated by the Guam Public Utilities Commission (PUC),provides all of Guam's electricity.

How much power does Guam generate?

Guam has a rated generating capacity of 560 MW,more than twice its historical highest load. This power is supplied by several plants burning residual fuel oil operated for the Guam Power Authority by independent power providers. In 2015,electricity in Guam cost 2.5 times as muchas on the U.S. mainland.

What is Guam Power Authority & Public Utilities Commission?

Guam Power Authority and the Guam Public Utilities Commission, as the result of a collaborative effort, have agreed on a set of standards, practices, procedures and methodologies to promote and provide incentives for prudent fuel use.

How does Guam Power Authority manage performance?

Guam Power Authority management holds strongly to the tenet that if you do not measure performance,then you cannot manage performance. In order to better serve the public,the Authority maintains standards for performance. In addition,the PUC and GPA have agreed upon standards for prudent fuel use.

What is Guam Power Authority (GPA)?

Established May 1968 by the Guam Power Authority Act of 1968. See,Guam Code 12,Chapter 8. GPA is a public corporation and an enterprise fund of the Government of Guam.
