Solar Power Packages Solar Direct offers the most flexible off-grid and hybrid Solar PV systems on the Guyana market to meet the budget and needs of our clients. No job is too small or too big for us as we cater for both residential and ...

The Government of Guyana, in partnership with the Inter-American Development Bank (IDB), has announced the launch of a competitive bidding process for the Engineering, Procurement, and Construction (EPC) of three utility-scale ground-mounted solar photovoltaic (PV) plants with battery energy storage systems.

Guyana's Public Utility (GPL) has initiated a tender for three utility-scale solar PV and battery storage projects, totaling 15 MWp of solar capacity and 22 MWh of storage. The tender, part of the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) Programme, is funded through the Guyana-Norway Partnership. Source: PV Magazine LATAM

In a solar battery back-up system, the battery needs to hold enough power for your everyday use while keeping some energy in reserve in case a power cut happens. The larger the capacity of the battery in kW, the more energy you can reserve for power cut back-up and the more appliances you'll be able to run during a power cut.

Solar power battery systems are an important component of any home solar system. Having a good quality and reliable battery means you can get the most out of your solar system and can save even more money and
