

# Italy aviva energy

Why did Aviva invest in Innovo renewables?

Aviva Investors has invested in Innovo Renewables at a platform level, as it seeks investments in growth companies that can help accelerate, and benefit from, the transition to a low-carbon economy. Similarly, it had invested in Connected Kerb to support the delivery of 190,000 EV chargers across the UK by 2030.

Who owns Aviva in Italy?

The parent company in Italy became CGNU Holding S.p.A. in 2001, which became Aviva Italia Holding in 2002. The subsidiaries became Aviva Italia, Aviva Life and Aviva Assicurazioni. The group also owned an equity stake in Banca delle Marche until 2010.

How much energy does Aviva use?

This green technology generates 812,000kwh, producing enough electricity to power over 500 homes annually. Aviva will use 77% of the generated energy, with the surplus entering the battery for later use or exported to the grid. Its annual output will power an electric car for 2,249,240 miles (90 times around the world)\*.
