

Lg solar container explosion

<div class="df_qntext">Does LG have a PV storage recall?

A message pops up on the LG website regarding the PV storage recall. The construction company Viebrockhaus confirms that an LG house battery was "installed and regularly maintained" in the house built in 2020 - professionally.

<div class="df_qntext">Why did viebrockhaus move a solar-plus-storage system?

Construction company Viebrockhaus made the move after an incident in Schönberg where a home fitted with a solar-plus-storage system suffered an explosion which destroyed a wall of the house. The builder, and battery maker LG, have put some units into standby mode and others have had their operating capacities reduced.

<div class="df_qntext">Did a photovoltaic battery explode in a residential building?

Last week, a photovoltaic battery presumably exploded in a residential building. The search for the cause continues. Meanwhile, LG has launched a battery recall. On Wednesday of last week, an explosion occurred in a residential building in Schönberg, Schleswig-Holstein, in which an outer wall was torn away.

<div class="df_qntext">Was LG battery installed in Schönberg home?

Image: Schönberg Volunteer Fire Department From ESS News German construction company Viebrockhaus has told pv magazine a 2019-edition LG battery had been installed in the Schönberg home where an explosion occurred last week, completely destroying one wall of the building.

<div class="df_qntext">Did LG put a battery in a house built in 2020?

The construction company Viebrockhaus confirms that an LG house battery was "installed and regularly maintained" in the house built in 2020 - professionally. In consultation with LG, the company has put all batteries from the same production series as those involved in the incident into standby mode.

<div class="df_qntext">Why is my LG house uninhabitable?

The building has been uninhabitable ever since. The search for the cause is ongoing, but it is suspected that the battery for the photovoltaic system in the house was the cause. A message pops up on the LG website regarding the PV storage recall.
