Chat with us MacSell Solar Outlet is your top choice for solar equipment in South Africa. We sell a wide selection of power backup solutions, inverters, batteries, and portable power systems and Inverter and Battery Combo. Variety of brands Mecer, Lucpower, Growatt, Dyness, Svolt, Fivestar and many more to suite every budget.

Where are solar cells made?

The company's production base in Laos plans to build 9GW of battery plates and 3GW of high-efficiency solar cell panel assembly equipment, on a construction site of about 32 hectares, which is the largest solar cell equipment production centre in the world after China.

Where is SolarSpace based?

SolarSpace's newest manufacturing facility is its first in Laos. Image: SolarSpace Chinese PV cell and module manufacturer SolarSpace has started cell production at its latest manufacturing facility, a 5GW factory in the Saysettha Development Zone in Laos, near the Thai border.

Does Laos have a solar sector?

The news is also a positive development for the Laos solar sector. Last year, the country began construction on its first large-scale solar farm, a 50MW project in the south-east province of Attapeu, and the government has already made plans to expand its solar sector further.

Is Laos a good country to invest in solar?

The government aims to increase the contribution of renewables to 11% by 2025, and while SolarSpace did not specify where its Laos-made modules would be shipped, the presence of a major manufacturing facility in the country is an important step in demonstrating the viability of Laos as a country capable of significant solar investment.

Macsell gave us top class service... Macsell gave us a top class buying experience with the Sun brand 10.2KW hybrid solar charger we ordered on 23 September. It was delivered undamaged to Port Elizabeth on 3 October. The contents were exactly as described on their website, and installed with no problems at all. Highly recommend.

Solar Panel 550w Tier 1 Mono Solar Panel Monocrystalline solar panels have the highest efficiency rates, typically in the 15-20% range. This high efficiency rate means they produce more power per square foot, and are therefore very space-efficient. Monocrystalline solar panels tend to be more efficient in warm weather.

Missing battery but good service corrected issue. Initial delivery had one battery missing, but good communication from Macsell quickly sorted the issue and the missing battery was shipped quickly. 5 stars would have been given if I didnt have to follow up with the courier and merchant to correct their mistake and figure out who was at fault. Great service otherwise and no regrets with my ...
