Powerwall is a compact home battery that stores energy generated by solar or from the grid. You can use this energy to power the devices and appliances in your home day and night, even during outages. With customisable power modes, you can optimise your stored energy for outage protection, electricity bill savings and more.

Not all battery products currently available in the UK can function properly below freezing. So, if you have limited suitable wall space inside your home for battery storage, the Powerwall is a great choice for external mounting. It's possible the new Tesla Powerwall 3 may change to a Lithium Iron Phosphate (LFP) chemistry mix. Why?
