1) Application: this smart BMS can work for 3 to 4S Lithium ion or Lifepo4 Battery, client can choose based on your battery chemistry features 2) Current : constant current of this version BMS can be made with 40A to 120A in according to the different demand 3) Dimension: :Max 138*102*15mm for...

I have created a VenusOS driver that can talk to BMS/Batteries that has serial communications (instead of the normal CANbus). RS485/RS232/TTL/UART and Venus 2.80+ have been tested. Currently it works with JBD BMS (LLT Power / Overkill Solar) Daly BMS (Daly Smart BMS / Daly Sinowalth based...

1) Application: this smart BMS can work for 12S 13S 14S 15S Lithium ion or Lifepo4 Battery, client can choose based on your battery chemistry features 2) Current : constant current of this version BMS can be made with 20A to 60A in ...

Am currently gathering components to complete a new caravan build consisting of a 4S 500Ah setup and am looking for something similar to a JBD / LLT Power Bluetooth BMS (e.g. JBD-SP04S020).

Malawi llt power smart bms

1) Application: this smart BMS can work for 3 to 4S Lithium ion or Lifepo4 Battery, client can choose based on your battery chemistry features 2) Current : constant current of this version BMS can be made with 40A to 120A in according to the different demand 3) Dimension: : Max 138*102*15mm for More than 60A current, and 138*102*10mm for less than 60A current 4) ...

6S 7S 8S 9S 10S 12S 13S 14S 15S 16S 17S 18S 20S smart Bluetooth BMS with 150A to 200A constant current for electric tricycle battery pack \$ 10.80 - \$ 93.90 Buy it now This product has multiple variants. The options may be chosen on the product page; 6S to 21S Li ion or Lifepo4 Smart BMS for electric vehicle electric motorcycle with 200A ...

What BMS would you recommend for this system . mikefitz Solar Wizard. Joined May 28, 2020 ... LLT POWER ELECTRONIC Features and Characteristics : Characteristics : this is a smart BMS with Bluetooth and PC communication which will be used to protect and monitor your battery status visible from the computer and your android APP phone .which can ...

Features and Characteristics : Characteristics : This is a smart BMS with UART or RS485, CAN Communication which will be used to protect and monitor your battery status visible from the computer and your android APP phone .which can support parameters setting and adjustment .the charge and discharge port is same . Constant current : 150A or 200A Application ranges ...

Daraufhin leuchten die grüne Status-LED und die blaue Bluetooth-LED am Lynx Smart BMS sowie die grüne Power-LED am Lynx-Verteiler auf. LEDs des Lynx Smart BMS. 7.3. BMS-Betriebsarten. Das BMS im Lynx Smart BMS kommuniziert mit den Batterien und schützt sie vor Unter- und Überspannung und niedrigen Temperaturen. Solche Ereignisse werden von ...

Smart BMS with bluetooth app for android and IOS For batteries with a cell count between 7s and 14s arge and discharge current; 30A Balance current; max 90mA Dimension: : 63*52*10mm Includes: * Smart BMS* Built-in Bluetooth* Balance cables* Temperature sensor IOS: XiaoxiangBMS Android: download here SPECS: Overcharge dete

Introductions and Descriptions : This System can support 48 to Max 500 Series Battery Management . This Master to Slave BMS management system which be used to monitor the cell voltage, battery pack total voltage, cell temperature, charge and discharge current and other parameters of the lithium battery system in real time and with high precision, and perform rapid ...

Smart BMS is a Product developed by us which can meet various application to offer a better working experience with current modern electronic technology . our Smart BMS can exchange information with electrical equipments via difference ...

@AussieSim I assume that is an LLT BMS, could you provide a link to it. If you got any docs, that would be helpful too. Is that "Box" pre-attached to the PCB or is that your handy work ? I like that solid

Malawi llt power smart bms

copper connection, no muckin about there ! The two securing tabs on the black box makes...

Smart BMS of Power Battery - LLT POWER ELECTRONIC Reactions: Dzl. ArthurEld Solar Wizard. Joined Aug 3, 2020 Messages 2,478 Location Hidden Meadow. ... With the JBD BMS, I suspect its LLT power / JBD Jaibada, but can't confirm. I am however highly confident that I can now spot and verify the JBD BMS by appearance and serial number.

The JBD/LLT 14s smart BMS is an awesome addition to any battery build. This smart-detecting BMS can automatically range (when wired according to the instructions) between 7 and 14s. This allows for use in a wide variety of builds and use-cases. In addition, this is one of the smallest 14s bluetooth BMS's on the market. Measuring in at just 63 x 52 x 12mm, it offers a ton of features ...

2 weeks ago purchased a jbd 8s 100a bms from them and payed extra for dhl post as needed it soon. Just got the bms and they sent a 4s version. Funny thing is i read your comment only the day before i got the bms and was like o crap i hope mine is ok.

Smart BMS of Power Battery; 3S to 4S Li ion or Lifepo4 Battery BMS; 5S ~6S Lithium Ion or Lifepo4 Battery PCB board; 7S to 8S li ion or Lifepo4 Battery BMS; ... 48S 45S 40S 35S 32S lifepo4 Battery high voltage BMS support CAN RS485 Communication for energy storage solar power,UPS,Electric grid Back up Power system

I believe Shenzhen E-Fire is a reseller (of various BMSes and other electronics). The furthest upstream I've been able to follow this BMS is JBD / Jaibaida / LLT power which appears to be the manufacturer but I can't say with 100% certainty. Either way, you chose a popular BMS at a good price.

So I think I need a BMS that can handle 200A, and I need it to have a low-temp cut-off so that I don't kill the cells. I've read that the low-temp cutoff doesn't work as advertised for lots of of the available BMS's. I've read great things here about the Overkill BMS, but the 24V version only goes to 100A.

Good Glad you've got it working. Is yours the new shorter black annodized model ? The next revision after the black enclosure models sell out will have a different relay, still JBD with Bluetooth but no enclosure.

I have created a VenusOS driver that can talk to BMS/Batteries that has serial communications (instead of the
