

Lithium iron phosphate battery is characterised by outstanding durability, current performance and charging speed also has a longer lifetime and is a more lightweight alternative to lead-acid batteries. LiFePO₄ retain 100% of their capacity even for 3000 charging cycles and thus they provide over 10 years of operation. Due to its low self-discharge rate the battery will be fully ...

There are two UN numbers that cover Lithium Ion batteries: UN3480 covers the battery only (e.g. a replacement battery on its own in a box) UN3481 covers the battery while contained inside another unit (e.g. the battery in a laptop). This information should be indicated by the e-seller but in any case, MaltaPost should be advised. Aerosols
