Can solar & biogas contribute to a sustainable future for Bhutan?

The integration of solar, biogas, and waste-to-energy solutions holds promise for diversifying the energy mix and contributing to a more sustainable future for Bhutan. Indeed, the current energy consumption pattern in Bhutan highlights

Who owns Bhutan Power Corporation & Druk Green?

Both the Bhutan Power Corporation and Druk Green are owned by Druk Holding and Investments, which exercises oversight in the investment and development activities of the energy companies. Both companies faced decreased profit margins largely because of losses due to increased energy price on repurchase from India.

What are the four ministries of energy in Bhutan?

In Bhutan, the planning and coordination of energy-related activities primarily fall under the purview of four ministries: the Ministry of Energy and Natural Resources (MoENR); the Ministry of Agriculture and Livestock (MoAL); the Ministry of Industry, Commerce, and Employment (MoICE); and the Ministry of Infrastructure and Transport (MoIT).

How much solar power does Bhutan have?

Solar Energy According to the Renewable Energy Resource Assessment 2015, Bhutan has a theoretical potential of 3,706,328 MW for solar photovoltaic power generation based on solar irradiance.

Why is energy important in Bhutan?

Energy in Bhutan has been a primary focus of development in the kingdom under its Five-Year Plans. In cooperation with India, Bhutan has undertaken several hydroelectric projects whose output is traded between the countries.
