

Midsummer company Andorra

Who is Midsummer solar?

Midsummer is a Swedish solar energy company that installs discrete solar roofs that we manufacture in Sweden with 90% lower carbon footprint than traditional solar panels. We have a high-tech, Swedish product and own the entire value chain from development and production to installation.

Why is Midsummer a sustainable company?

Midsummer's sustainability efforts are based on our desire to reduce the environmental impact of the production of solar roofs. A third-party-reviewed lifecycle analysis shows that Midsummer's solar roofs generate almost 90% lower carbon footprints than traditional solar panels thanks to our efficient production systems.

How does Midsummer work?

The product is sold as a retrofit on your existing roof tiles or as a complete roof replacement. Midsummer controls the entire value chain from manufacturing equipment to finished solar roofs. This has been achieved through the development of advanced solutions for mass production of flexible thin-film solar cells.

What is A Midsummer Slim solar panel?

With our products Midsummer SLIM, Midsummer WAVE and Midsummer BOLD the customer gets light, thin and discrete solar panels that provide a discrete solar roof. A flexible solar panel with record low weight, adapted for large roof surfaces. The product is sold as a retrofit on your existing roof or as a complete roof replacement.

Who is Midsummer machinery?

Under the Midsummer Machinery brand, we supply production systems for flexible thin-film solar cells. Midsummer was founded in 2004 with the desire to transform the world's most climate-friendly energy source into usable energy for everyone.
