

Mogobe Bess French Guiana

What is the Mogobe Bess project?

The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa. We continue to see attractive growth opportunities in the market based on the need for growth in power generation, our strong position in the country and our strong and competent local team," says Scatec CEO Terje Pilskog.

Where is Bess located in Africa?

Replicating successes from our hybrid solar and battery storage projects at Kenhardt, we will proceed to construct one of Africa's first and largest standalone dispatchable BESS systems. The project is located near Kathu, Northern Cape, close to high power demand centres.

Does Scatec own Mogobe & Perpetua?

Scatec will own 51% of the equity in the project with Perpetua Mogobe (RF) (Pty) Ltd owning 46.5% and a holding company of the Mogobe Local Community Trust 2.5%. Scatec will be the engineering, procurement, and construction (EPC) provider and provide operations & maintenance (O&M), as well as asset management (AM) services to the project.

Mogobe BESS has a 15-year PPA with the National Transmission Company of South Africa (NTCSA). The NTCSA is a subsidiary of Eskom Holdings created through the ongoing unbundling of Eskom - South Africa's national utility - into three separate entities responsible, respectively, for electricity generation, transmission, and distribution. ...

Scatec is set to begin construction on the Mogobe battery energy storage system (Bess) facility near Kathu in the Northern Cape. The project, awarded under the first bid window of the Battery Energy Storage Independent Power Producer Procurement Programme, represents a major step forward in South Africa's energy infrastructure ...

Located near Kathu in the Northern Cape province, the 103-MW/412-MWh Mogobe BESS will be majority owned by Scatec with a 51% shareholding, while its partners -- Perpetua Mogobe (RF) (Pty) Ltd and the holding company of the Mogobe Local Community Trust, will have 46.5% and 2.5%, respectively.

In a milestone moment for the newly unbundled South African grid, Norwegian developer Scatec has reached financial close on the Mogobe battery energy storage system (Bess) project. The plant, to be located near Kathu in the Northern Cape, will be the country's first stand-alone Bess IPP.

Renewable energy solutions provider Scatec has reached financial close for the 103 MW Mogobe battery energy storage system (BESS) facility in South Africa. The company is now making final preparations to start construction of the project. Situated near the town of Kathu in Northern Province, the \$170 million project

was awarded a 15-year power purchase ...

Norway-based independent power producer (IPP) Scatec has started operations on three solar-plus-storage projects in South Africa, totalling 1,140MWh of BESS capacity. Located in the Northern Cape province, the ...

Renewable energy provider Scatec has reached financial close for the 103MW / 412MWh Mogobe battery energy storage system (BESS) project in South Africa and is now making "final preparations" to start construction of the project, the company said. Mogobe BESS - located in Kathu, Northern Cape - was awarded a 15-year power purchase ...

The Mogobe BESS facility has received a 15-year power purchase agreement under South Africa's Battery Energy Storage Independent Power Producer Procurement Programme. The agreement ensures that Scatec will earn payments for making its storage capacity available to the National Transmission Company of South Africa. This capacity is vital ...

Programme (BESIPPPP) bidding round have advanced to commercial close and will now enter construction. The projects, named Mogobe BESS and Oasis Mookodi, have a combined capacity of 180 MW/720 MWh, and will be connected to transmission substations located near to Kathu in the Northern Cape and Vryburg in the North West province respectively. The battery storage ...

The projects, named Mogobe BESS and Oasis Mookodi, have a combined capacity of 180 MW/720MWh, and will be connected to transmission substations located near to Kathu in Northern Cape and Vryburg ...

Scatec ASA, a leading renewable energy provider, has reached financial close for the Mogobe battery energy storage system ("BESS") facility, which has a total capacity of 103 MW / 412 MWh and is now making ...

Operator. BESS further allows for more integration of renewable energy onto the grid. The two Projects that achieved Commercial Close today are Mogobe BESS and Oasis Mookodi. Mogobe BESS, with a contracted capacity of 103MW/412MWh will be connected to Eskom's Mogobe Substation close to Kathu in the Northern Cape province.

With Mogobe BESS breaking new ground as one of the largest standalone battery storage systems in Africa, Scatec is set to play a pivotal role in South Africa's energy procurement landscape. By contributing to the stabilisation of the national grid and facilitating more renewable energy connections, projects like Mogobe are crucial to ...

Scatec secured its preferred bidder status with Mogobe under the first bid window of South Africa's Battery Energy Storage Independent Power Producer Procurement ...

Construction works on the Mogobe battery energy storage system (BESS) facility project in South Africa is
