

Nayax energy Kenya

What is Nayax energy?

Nayax Energy's unique offering, which includes global payment solutions for any local market, white label energy management, a driver app, hardware agnostic solutions, loyalty and marketing capabilities, and support of common industry protocols.

What is Nayax?

Nayax is a global commerce enablement and payment platform designed to help merchants scale their business. Our mission is to improve our customers' revenue potential and operational efficiency.

Why did Nayax change?

This change represents a strategic evolution that aligns with Nayax's commitment to its partners and customers to simplify payments and energy management, and to maximize loyalty for the electric energy industry.

How many EVS will Nayax energy have in 2030?

Nayax Energy is looking ahead to 2030, when, according to the International Energy Agency, 230 million EVs are expected to be on the road, and over 250 million charging stations will be needed to address this growth.

What is Nayax & Adyen's new Omni-channel payment service provider solution?

At the center of Nayax and Adyen's partnership is a forthcoming first-of-its-kind global omni-channel payment service provider solution specifically built for EV Charge Point Operators (CPOs).

What is the difference between EV meter and Nayax?

Before this change, EV Meter mainly focused on energy and charging station management and hardware (AC Level 2 charging stations), while Nayax was mainly focused on card present payments for charging stations.

Pay N Charge Nordic is a charge point operator (CPO) and a market leader in electric car charging based in Torslanda, Sweden. They identified a growing need for seamless EV charging solutions and decided to go with Nayax Energy's EV Meter.
