

Nigeria piller power systems

What is Piller Power Technology?

Piller power technology protects the world's critical infrastructure. Established in 1909, Piller Power Systems is Europe's leading producer of uninterruptible power supply (UPS) systems for mission-critical power applications such as data centres and semiconductor manufacturing.

Who makes Piller Power Systems?

Established in 1909, Piller Power Systems is Europe's leading producer of uninterruptible power supply (UPS) systems for mission-critical power applications such as data centres and semiconductor manufacturing. Piller also manufactures ground power systems for civil and military airports and on-board electrical systems for naval vessels.

Who is Piller?

Regional Offices Piller offers the aviation industry customised system solutions in high-quality energy conditioning, an uninterruptible power supply and frequency conversion. Piller is a world leader in mission-critical uninterruptible power systems and has been renowned for the quality of its products and services since its formation in 1909.

Where is Piller located?

37520 Osterode, Other, Germany Phone +49 5522 311 0 Fax Number About us Regional Offices Piller offers the aviation industry customised system solutions in high-quality energy conditioning, an uninterruptible power supply and frequency conversion.

What is a Piller UPS system?

Piller UPS systems are found in mission critical applications up to 50MW where continuous and stable power is paramount such as Microgrids and Island grids, data centres, financial institutions, broadcasting, as well as telecommunication networks, airports, healthcare facilities etc.

What does Piller do?

With a global network of highly qualified service staff, Piller technicians are currently taking care of around 10,000 units of high power UPS equipment in over 50 countries, supporting client activities in data processing, finance, industry, communications, aviation and defence, 24 hours a day, 365 days a year.
