

Normal job-hopping increase in the solar container industry

<div class="df_qntext">How will the solar job market change in 2024?

For 2024, we expect very slow solar installation capacity growth by only around 5% to about 64 GW new solar in the EU. As consequence, the solar job market will stagnate, and job numbers are likely to increase by less than 1%.

<div class="df_qntext">Will EU solar jobs grow in 2023?

The report takes a look at the state of play for EU solar jobs in 2023, and outlines projections for growth of the workforce until 2028. To ensure that the solar workforce remains ready to deliver the continent's primary decarbonisation tool through the second half of the decade, the EU Solar Jobs Report makes a number of policy recommendations.

<div class="df_qntext">How many solar jobs are there in 2023?

The U.S. solar industry accounted for 279,447 jobs as of December 2023, a 5.9% increase on 2022, with some of the biggest increases in Florida, Texas, Arizona, and Nevada, according to the Interstate Renewable Energy Council (IREC).

<div class="df_qntext">How many people work in solar?

The Interstate Renewable Energy Council (IREC) has reported that 280,000 Americans work in solar, as of 2023. Over 10,000 solar companies across U.S. states are responsible for this employment, with workers with a wide variety of backgrounds and job functions supporting the solar industry.

<div class="df_qntext">Why are solar installations growing so fast?

In the last decade, solar deployments have experienced an average annual growth rate of 28%. Strong federal policies like the solar Investment Tax Credit (ITC), rapidly declining installation costs, and increasing demand for clean electricity across the private and public sector have driven this growth.

<div class="df_qntext">Where are solar labor shortages most likely?

Labor pinch Solar labor shortages are most apparent in Indiana, Missouri and New York, and there are significant shortages in many states in the Midwest MISO and Southeast SERC networks, Kaitlin Fung, Research Analyst, North America Utility-scale Solar at Wood Mackenzie, told Reuters Events.
