Oceanic Home Solar is Hawaii's trusted solar solution designer and installer. We're with you every step of the way from planning, to the installation of solar electric, solar water, and solar battery backup storage.

Solar water heating systems include storage tanks and solar collectors. Pumps circulate household water through the collectors and into the home. During the day while the sun is out, the water is heated through panels on your rooftop. The heated water is then pumped back to the water tank where it is stored for use.
