<div class="df\_qntext">What size is a sun Kettle?

Size: L - 16.9 Fl Oz. L - 16.9 Fl Oz. XL - 33.8 FL Oz. **BOIL WATER:** The Sun Kettle uses solar power to boil your water. It traps sunlight & focuses it on the tempered glass tube in the middle of your solar flask. Your water heats up to 212&#176;F in about 45 minutes depending on your weather conditions.

<div class="df\_qntext">How do you use a sun Kettle?

It's durable enough to take hiking, camping, fishing, hunting or for other outdoor activities. It's also super easy to use. Simply fill the Sun Kettle with water, point it at the sun & let the water boil. And with more water than ever before you can make coffee or a hearty oatmeal breakfast for the whole family.

<div class="df\_qntext">What is a sun Kettle XL?

With the Sun Kettle, you can create boiling water without hassle. **EXTRA-LARGE CAPACITY:** Each Sun Kettle XL holds up to 33.8 fluid oz of water. It's a great solar cooker for MRE meals, hotdogs, or coffee for the whole family. Or use the water for an easy clean-up while camping. Perfect for campers looking for hot food & drinks in a &quot;no burn&quot; zone.

<div class="df\_qntext">How does a sun Kettle work?

It's also super easy to use. Simply fill the Sun Kettle with water, point it at the sun & let the water boil. And with more water than ever before you can make coffee or a hearty oatmeal breakfast for the whole family. No more open fires or outlets needed to boil water. Your Sun Kettle creates boiling water using the free power of the sun.

<div class="df\_qntext">How much does a solar Kettle weigh?

The Solar Kettle is great for camping, beach and only weighs 1kg so can be taken with on hikes. The Solar Kettle will cook water for 2 cups of coffee, and with the lid on also acts as a thermos flask and will keep water hot for many hours.

<div class="df\_qntext">What is a DIY solar Kettle?
