Does myenergi's Zappi Charger work with other eV Products?

It also works with other MyEnergi products. MyEnergi's Zappi charging point is a smart EV charger for homes and businesses. It's available in four versions, each of which comes in white or black.

What is a Zappi charging point?

MyEnergi's Zappi charging point is a smart EV charger for homes and businesses. It's available in four versions, each of which comes in white or black. Tethered Zappis have a type-two charging cable attached, while untethered models have a socket - you'll need to use the type-two cable that came with your car.

Is Zappi a good EV charger?

Your mileage and performance may vary based on the weather, your driving style and type of route driven. 200,000 drivers in Britain voted zappi as Home Charger of the Year? Britain's best-selling, and our very own, eco-smart EV charging station, was awarded Best Home Charger at the Auto Trader New Car Awards in 2023. And rightly so!

What if Zappi is consuming 12Kw (52A)?

Property is consuming 12kW (52A). The user wants to charge in FAST mode. Without the Grid Limit set, the total consumption would exceed the allowed import current and trip the supply or blow a fuse. However, with a Grid Limit setting of 60A, zappi would temporarily limit the charging current to 8A (about 1.8kW) and the maximum allowed import

Does Zappi EV charger come with a warranty?

As well as having our excellent technical support team on hand to answer any of your questions and queries, our zappi EV charger also comes with a 3-year warranty. Once your home EV charger has been installed, please register your individual products to take full advantage of the 3-year warranty support.

Can I get more from the Zappi?

You could get more from the Zappi if you also pair it with other MyEnergi products, such as the Eddi - a charge diverter that uses excess solar electricity to heat your hot water - or the Libbi battery.

Then set schedules in the Myenergi app to charge in the overnight cheap period. jbdoesound. 19 7. ... I believe they sent a Zappi to France for Renault to test with when the Megane had problems charging from it. All the best. Jon. Post 11:48 AM - Oct 02 #9 2024-10-02T11:48+00:00.

Hi there, I have set up my Zappi to charge at night on both the app and the charger. But it insists on charging once it's plugged in. I have tried eve ... Myenergi do not read all posts. They report being busy on new products l. Big ...

The Zappi Mode is only defined as a Select entity (select.myenergi\_ev\_charge\_mode). It can be changed on a Dashboard but it does not change the status in the App or on the Zappi.; afterward a short period it is reset to the current status. The integration provides Services for boosts but the mode change. I am simply seeking some ...

bobtaylor364 wrote:We've recently joined Intelligent Octopus (IO) which offers a 7.5p off-peak charge between 11:30pm and 5:30am. However, as soon as we plug the car in, the IO app often schedules the charge during daylight ...

The skill is called My Zappi and you can find it in the Alexa skill store. ... I copied the serial number of my Zappi from my Myenergi Product screen and pasted it to the Amazon screen followed by the API Key. The Amazon ...

6 ???&#0183; Originally, we offered eight zappi variants: four 7kW single-phase units, available with either tethered or untethered cables in black or white, and four 22kW three-phase models, also available in both cable types and colours.

Einstellung Zappi. steffene. 6 2. steffene. 6 2. ... In der Myenergi App zeigt sich das aber ganz anders. Da gehen dann nur 0,5 kw der angeblich 1kw produzierten ins Netz. Ich habe 3CTs mit Harvi an der Netzmessung, 3CTs mut Harvi am Wechselrichter und 1CT mit Harvi an der Batterie, da diese nur 1phasig l&#228;uft.

So my untethered Zappi won't recognise my PIN, the cable isn't locked, the symbol is purple. ... myenergi &gt; Products &gt; zappi v2 &gt; HELP! Zappi not recognising PIN. Share. Een zappi laten installeren bij u thuis door een installateur. Zakelijk. Zakelijk laadstation. Bekijk de zakelijke laadoplossing van myenergi. Zoek een installateur. Een zappi laten installeren door een gecertificeerde installateur. Koppel zappi met een beheersplatform. Om zakelijk te kunnen verrekenen kan zappi gekoppeld worden met een OCPP ...

May be of interest to note that the Zappi is the master and Eddi is its slave, yet the Eddi light on the hub never changes to red - only the Zappi and Harvi. That said, whilst the Eddi shows surplus power (via data derived from the Zappi), it doesn't heat while the Zappi and harvi hub lights are red (and while Zappi is no longer charging).

Example say the Zappi delivered 100w-sec for 6-hours then there would be 21600 records (6x3600) and one field will be Zappi power, so add them all up 100watt-sec x 21600=2160000/3600/1000 kWh = 0.6kWh That's ...

Waiting for surplus is the correct behaviour for IOG zappi integration I assume you have the Tesla integration and so zappi should be in fast mode, it will start to charge, you should stop in the Tesla app and then you should get a charging plan from octopus, zappi will display charge delayed.

MyEnergi's Zappi charging point is a smart EV charger for homes and businesses. It's available in four versions, each of which comes in white or black.

additional support for 3 phase systems, allowing connection of a single phase zappi in a 3-phase 3-wire supply, and to allow the ECO+ mode to be used on a three-phase zappi with all three phases energised. The way i read it, this allows the Zappi 1 to be able to be used with 3-phases, which is not possible. &lt;Confused&gt; Richard

Hi guys, I have already a Zappi V2 installed. I'm very happy so I thanks creators! I have a question: if I install a second Zappi in my home, I can use the same hub and the same CT to read powers from Solar and Grid? So, i only need the Zappi and I can use all the function like now? Thank you again.

Zappi versions that do not have the -T suffix comply with EN 61851-1:2019 with the exception of Clause 8.4 in order to meet the requirements of BS 7671:2018 Amendment 1:2020 which requires the protective earth conductor to be switched in order to provide protection against a damaged PEN conductor in a TN-C-S earthed electrical system

So far I have been unable to find any indication that myenergi have made any particular provision for these scenarios with the Zappi. This is going to be an increasingly important point when choosing an EVCP. ... (KISS). When someone charges on my zappi - we have a look at the screen (or charge log if necessary) then simply kWh x &#163;0.186 ...

I'm on IO and once I completed the onboarding test charge, switch my Zappi to echo+ and have a schedule on the Zappi for the normal over night cheap rates, 2330 -&gt; 0530. Normally my car is returning home and doesn't need much charge so can easily charge within this time bracket and the schedules match up with out issue.

I find the Zappi handbook badly written. There are many examples of its versatility but there are many more options on the control panel than are desc. ... Myenergi support will sort it for you I am sure. prawlin. 4,488 2,241. Grand Master. prawlin. 4,488 2,241. Post Aug 04, 2021 #8 2021-08-04T18:39+00:00.

## Palau zappi myenergi

The scheduler service is different between the My Zappi and MyEnergi so the two schedules don't inter-operate. What happens if I have schedules configured on both MyEnergi and My Zappi? Both schedules will trigger independently. If the schedules are both configured for the same time, the sequence of the schedules may not be deterministic.

I find this an irritating "feature" of the Untethered Zappi, if I terminate a charge in any way this happens, it's no good following the screen instruction to press the + to unlock the cable as it doesn't work. I press the menu then reset the Zappi to release the cable. It's never been any different! I just accept it.

Zappi is claimed to be the only EV charger with built-in PEN fault technology. This improves safety and eliminates the need to install additional earth rods. Zappi works in harmony with your Solar PV or wind generation, ...

Hi I wondered if you are working with Octopus energy to enable the Intelligent octopus service to work with Zappi chargers. I am guessing they are working on only allowing the car to charge in off peak time, and so need additional information to make this happening.

This remains the same if we charge in the middle of the day. We put our neighbours EV onto the zappi and the charging rate is still 3.6 kWh. The car is capable of being able to charge at 7.7 kW. We have searched for information but can't find out how to see if the zappi is set to charge at 7.7 kilowatt hours or lower? any advice gratefully ...

1 ??&#0183; My Zappi charger was fitted back in 2001 and this has given me almost 4 good years of uninterrupted home charging. During this time there has never be ... Myenergi can probably arrange this for you. The newer Zappis have an improved cable which hopefully will ...

Does myenergi provide any security features on the Zappi to prevent the unit itself from being stolen? I've read earlier today of an owner waking up to find their Zappi was removed from the outside of their property in under 10 minutes.
