

What is the potential for solar energy in Palestine?

There is high potential for solar energy in the Palestine, with a daily average solar radiation of 5.4 kWh/m² which should encourage its use for mass applications like cooking, industrial and domestic heating, water pumping, rural electrification, desalination etc.

Is Palestine a good place to invest in solar energy?

Palestine has some of the highest rate of solar water heating in the region, and there are a number of solar power projects. A number of issues confront renewable energy development; a lack of national infrastructure and the limited regulatory framework of the Oslo Accords are both barriers to investment.

How many homes in Palestine use solar energy heaters?

Over half of all households in Palestine utilise solar energy heaters, although only 3% of houses depend on it as their main source. A 710kw photovoltaic plant was commissioned in September, 2014 in the vicinity of Jericho; it is the largest plant in Palestine to date.

What is solar water heating in Palestine?

Palestine receives about 3,000 hours of sunshine per year and has an average solar radiation of 5.4 kWh/m. Domestic solar water heating (SWH) is widely used in Palestine where almost 70% of houses and apartments have such systems. In fact, Palestine is one of the leading countries in the field of SWH for domestic purpose.

How can Palestine reduce its reliance on imported energy carriers?

Palestine can reduce reliance on imported energy carriers by deployment of clean energy systems, especially solar, geothermal and biomass. Palestinian areas has large alternative energy potential which can be harnessed by a futuristic energy policy, large-scale investments and strategic assistance from neighbouring countries like Jordan and Egypt.

How much wind energy is used in the Palestinian territories?

It has been estimated that wind energy has the potential to account for 6.6% of energy usage in the Palestinian Territories.

The SolaX A1 HYBRID G2 mppt solar hybrid inverter from SolaX Power is specially designed for American market. Power ratings - 3.8kW, 5kW, 6kW, and 7.6kW. Contact us today!

Massader is developing 16.5 MW medium-scale Solar PV Parks in 3 different locations in Palestine, including Jericho plant (7.5 Megawatt MW), Kufr Dan plant in Jenin (5 MW), and Rammun plant in Ramallah (4 MW). The three solar parks are developed using the net metering scheme under the renewable energy law of Palestine.
