Panel solar power Dominica

Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ ...

A Quick Solar Panel History. Alexandre Edmond Becqueral was the first scientist to discover the photovoltaic effect in 1869, which describes how energy is harnessed from sunlight. In 1941, Russel Ohl invented the solar cell, a small thermal conductor that absorbs light by heating the cell and transferring power through direct heat or indirect power from heat ...

There are a lot of advantages in using solar power as energy supply. Photovoltaic solar panels not only provide a cost-effective power solution, they also make use of the single most sustainable resource on the planet e.g. the light of the sun. Solar power can be used in good conscience because it is pollution free and causes no greenhouse gases.
