

Pixii energy Zimbabwe

Does Pixii provide energy storage?

If you have an energy storage requirement in range mentioned above, Pixii will deliver. Pixii have offices in Norway, Germany, Slovakia and Australia and other offices in other key markets is under consideration.

What makes Pixii sustainable?

At Pixii, sustainability is at the core of who we are. Our innovative Battery Energy Storage System (BESS) provides flexibility to the grid with a range of smart functionality, like peak shaving and arbitrage, allowing for an efficient, reliable, and sustainable way to store energy and get the most out of renewable energy.

How can Pixii contribute to a greener future?

The electrification of transportation, the fluctuations in energy prices, and the transition to weather-dependent renewable energy require flexible and scalable energy storage solutions. Pixii recognizes the pressing need for sustainability and provides modular and scalable battery energy storage systems (BESS) that contribute to a greener future.

Is Pixii a good company?

The jury writes that Pixii has developed an advanced and innovative solution for battery-based energy storage that really hits a nerve in the green transition. "We are extremely proud to win, and it is a great recognition for everyone in the company."

What is Pixii Powershaper XD?

The Pixii PowerShaper XD, is a fully integrated IP55 modular energy storage system designed for easy deployment, high energy density, low noise stand alone or grid connected power. Utilising Pixii Energy Architect (EMS).

Can Pixii store my personal information?

By clicking submit below, you consent to allow Pixii AS to store and process the personal information submitted above to provide you the content requested. The Pixii PowerShaper XD, is a fully integrated IP55 modular energy storage system designed for easy deployment, high energy density, low noise stand alone or grid connected power.

The Pixii PowerShaper family is a complete energy storage solution for up to 50kW power conversion and 50kWh energy storage capacity with LFP batteries and 40kW and 120kW with NMC batteries.

Pixii has signed a memorandum of understanding with the Provincial Electricity Authority (PEA) of Thailand and I2 Enterprise Public Company Limited to collaborate on a project to develop battery energy storage systems to support PEA's power grid.

Pixii energy Zimbabwe

The Pixii battery energy storage system is fully integrated, enabling businesses to get the most out of their new or existing solar panels. It allows for fast charging, and with smart functionality like time shift and peak shaving, businesses can store energy during off-peak hours to reduce costs and manage energy demand.

With smart functionalities like time shifting and peak shaving, you'll reduce your energy bills by storing energy during off-peak hours. Pixii's BESS offers a complete value stack by not only saving on costs but also generating new income. Homeowners can participate in demand response programs, earning revenue from the grid, and where ...

Optimize energy use and generate revenue with a modular, scalable BESS. With energy demand on the rise, businesses need a flexible solution that scales to meet their needs without upgrading old grid infrastructure. The Pixii PowerShaper is a modular battery energy storage system that optimizes energy use, helping you avoid costly grid upgrades.

Pixii's battery energy storage system (BESS) addresses these primary needs - but this is just half the story. To truly optimize your return on investment (ROI) an optimized value stacking is essential. With Pixii, your BESS can transform into a comprehensive, revenue-generating investment. Dynamic value stacking for optimized ROI

Reduce energy cost and unlock new revenue streams. The Pixii battery energy storage system offers a flexible solution for enabling efficient and cost-effective EV charging in parking lots and office buildings. It is modular, allowing for seamless scalability to meet your specific needs, and has a range of smart functions to optimize energy usage.

Flexible off-grid/on-grid battery energy storage system. The Pixii PowerShaper XD, is a fully integrated IP55 modular energy storage system designed for easy deployment, high energy density, low noise stand alone or ...

Famous for its sun, surf, and sustainability, Bondi Beach is now embracing a new wave of renewable energy innovation. With Pixii's community battery now installed, excess solar power is no longer wasted but stored to stabilize the grid, reduce energy costs, and charge electric vehicles (EVs). This project strengthens Bondi's role as a ...

Pixii is happy to announce that Rexel will distribute Pixii's products in Sweden, a key market for Pixii's smart energy storage solutions. Together with its installation customers, Rexel will target commercial and public property owners and industries with Pixii PowerShaper cabinets as well as the residential market with the newly launched ...

The Pixii PowerShaper family is a complete energy storage solution for up to 50kW power conversion and 50kWh energy storage capacity with LFP batteries and 40kW and 120kW with NMC batteries. PowerShaper family. PowerBase. PowerShaper. PowerShaper Indoor. Bulding blocks. PixiiBox. Pixii Gateway.

Pixii energy Zimbabwe

The partnership aims to streamline the EV charging landscape by seamlessly merging technologies and presenting a turnkey energy management solution with modular energy storage. "We are excited to partner ...

Our partnership combines Pixii Home's advanced energy storage with Greenely's platform to make energy use more efficient in homes and communities. This step forward allows homeowners to better control and ...

Kenneth Bodahl, Chief Executive Officer of Pixii Meeting India's energy storage needs. India is projected to require between 160 and 182 GWh of energy storage by 2030. Our modular and scalable energy storage systems ...

Pixii leads the way in delivering innovative Battery Energy Storage Systems (BESS), empowering a secure and sustainable energy future. With headquartered in Norway, we combine decades of expertise in power conversion, modular ...

A commitment to Australia's energy future. Pixii's expansion into Brisbane signals its long-term commitment to supporting Australia's renewable energy ambitions. With its innovative and scalable solutions, Pixii is helping to reshape the way energy is stored and used in Australia. The company's vision is to empower businesses and ...

Pixii's battery energy storage system offers a range of advanced functions, including voltage support, phase balancing, and active and reactive power compensation. The BESS is modular and easy to install, with hot swappable modules for easy maintenance. It also comes with remote monitoring and a range of services and support, including ...

Pixii's smart battery energy storage solution in Lierne is more than just an energy remedy; Businesses in the Jule Industrial area now operate unhampered, and the area stands at the cusp of new job opportunities and industrial growth. The Lierne pilot project has exceeded expectations, reducing the cost of network loss for Tensio in the area ...

The PowerShaper PoleTop from Pixii, is an IP55 complete modular energy storage system. It is fully integrated with and ready to be connected to the grid for applications as grid support, solar self consumption, demand charge reduction, peak shaving, arbitrage, FCAS and FFR services.

With cutting-edge technology, the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential. Learn more. Driving innovation with quality and responsibility. ... Pixii AS is ...

Pixii's battery energy storage systems with smart functionality enable telecom operators to better utilize these resources and address challenges in local grids. By introducing bi-directional converters, which can both provide power to telecom loads and feed excess energy back to the grid, telecom operators can make their assets more active ...

Pixii energy Zimbabwe

The Pixii Home battery has a capacity of up to 20 kWh. It can cover a significant part of your home's energy needs, especially for smaller to medium-sized households. A 20 kWh Pixii Home battery, when used together with solar ...

Our partnership combines Pixii Home's advanced energy storage with Greenely's platform to make energy use more efficient in homes and communities. This step forward allows homeowners to better control and optimize their energy consumption. It's a practical move towards more sustainable living, reflecting our joint commitment to ...

The Pixii Home battery energy storage system is quick to install and easy to use, helping you get more out of your solar panels and reduce your dependency on the grid. Pixii Home is a compact, all-in-one solution that combines cost-saving and revenue-generating functions through value stacking. It connects with most new or existing solar panels ...

This marks a significant step in providing efficient energy storage solutions for energy-intensive applications. Pixii PowerBase XL - Preconfigured skid, 540kW up to 1,8MWh A practical solution for energy needs. Part of the PowerShaper XL product family, the PowerBase XL offers 530kW power and 1.8MWh storage capacity. It's designed for ...

Pixii's battery energy storage systems are designed to help businesses take full advantage of the IRA's incentives. Here's how: Flexible installation options: With the new ITC for standalone storage, Pixii's BESS can be deployed in various configurations - whether as part of a new energy storage project or as an upgrade to existing ...

Pixii energy storage can operate with most battery modules designed for 48VDC and parallel operation and our systems are compatible with a wide range of battery brands and technologies. LFP batteries typically for more power oriented applications, with the lowest level of cobalt or nickel, and NMC batteries providing the highest level of energy ...

Pixii, with its wealth of expertise in power conversion and energy storage, is at the forefront of innovation in the industry. Their core competence lies in power conversion between the grid, ...

With cutting-edge technology, the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential. Learn more. One core module, many products. Our modular building block called the PixiiBox is the core component in all our systems. PixiiBox opens the door for both energy saving services ...

Introducing the Pixii PowerShaper XL - the next evolution in energy storage. Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, ...

Pixii energy Zimbabwe

Kenneth Bodahl, CEO of Pixii. Seamless Integration and future-proof flexibility. From the start, our BESS has been engineered to deliver the perfect value stack. It's not just about hardware - it's about a complete system that connects easily with energy sources like solar panels and the grid, managing energy inputs and outputs efficiently.

Volker Rossmann, CSO of Pixii From the left: Chris Mathea, Energy Manager Sustainability Technology, PASM, Konja Wick, Key Account Manager in Pixii and Volker Rossmann, CSO of Pixii About Power & Air Solutions (PASM) Power & Air Solutions was founded in 2004 and is a 100% subsidiary of Deutsche Telekom AG. The mission of the Munich-based ...
