As an independent company, we offer bespoke solutions for domestic and public/private sector commercial clients to suit all requirements and budgets to help generate your own energy and lower costs while reducing impact on the environment.

I don't even remember meeting anyone from Spark Energy, but I received a notice of early termination fee and they are asking me to pay \$100. I remember meeting someone who claimed to be from my provider and she never mentioned that she was on behalf of Spark Energy. I should have never spoken to anyone, I will stick to online only.

In addition, Portugal has implemented energy efficiency measures, such as building codes that require energy-efficient buildings and the use of smart grid technology to manage energy consumption. Energy-efficient buildings are a major factor for people, many of whom seem to believe that all construction is seriously inadequate in this area.
