“Explore top solar panel manufacturers in Somalia, leading the renewable energy revolution with innovative solar solutions for a sustainable future.” In the heart of Africa, Somalia is making strides toward renewable energy, with solar power leading the charge. The country's unique geographical position affords it an abundance of sunlight ...

Currently, solar panels cost about 12 cents per watt from China, but Somali businessmen sell it for 45 cents a watt. I understand a business has expenses and shipping cost and employees. But a 550 Watt solar that cost \$66 to buy from Alibaba should not cost \$247. Especially when they are shipped by the container full.
