

Roofit solar Venezuela

Who is roofit solar?

28. May, 2024 Roofit.Solar, an innovative solar roof company, has achieved a historic milestone by becoming the first Estonian business to receive the prestigious "Best of the Best" accolade at the renowned Red Dot Award 2024.

What are roofit solar modules?

Roofit.solar modules are building integrated photovoltaic (BIPV) construction elements that replace the conventional roofing and facade materials. Our aesthetically appealing & innovative solution has been recognised by numerous prestigious awards, including European Business Award for Environment, Clean Air Challenge Award & Swedish Steel award.

What is a solar roof?

Our solar roof panels are a 2-in-1 building-integrated photovoltaic (BIPV) solution for your roof. The high-tech monocrystalline solar cells provide stellar performance even in low-light conditions. All the while, the sleek vertical lines of a classy black roof will give your house an aesthetic look and blend in seamlessly with any neighborhood.

Why should you choose roofit solar?

At Roofit.Solar we build a product for the generations to come, for a sustainable planet, and for the beauty of a sleek, black roof. The trust of our customers is the perfect proof that we are on the right track. weather and produces sustainable energy at the same time.

Are solar roof panels suitable for sloped roofs?

Our solar roof panels are an ideal photovoltaic solution for sloped roofs with a minimum pitch of 10°; for both residential and commercial houses. Thanks to cutting-edge solar technology, our fully integrated solar roof panels protect your home from the elements while also producing sustainable energy from day one.

Is a solar roof a good alternative to a conventional roof?

Solar roof is a great alternative to conventional roof and as source of energy. In the long run, the price of a solar roof is even cheaper than a regular roof because my roof generates electricity over time.

A Roofit.Solar solar roof is designed for both residential and commercial buildings. We help you achieve maximum savings while adding a beautiful aesthetic touch. Our solar roof is more than just a roof, it's a complete system. This includes full-service installation as well as tailored IT solutions for system analysis and monitoring.
