What is the future of electricity in Saint Lucia?

At the same time, recent developments in energy efficiency, renewable energy, cleaner-burning fuels (e.g., natural gas), electricity storage, and advanced controls and metering present a myriad of opportunities. Saint Lucia's current electricity system is well managed, reliable, and equitable.

How much electricity does Saint Lucia have?

LUCELEC has an installed electricity generating capacity of 78.4 megawatts(MW),with peak demand of 60 MW. Most of the island's energy is produced from imported diesel fuel that powers electrical generators. Saint Lucia's electricity rates are more than triple the U.S. average.

Is Saint Lucia reliant on fossil fuels for electricity generation?

Like many island nations,Saint Lucia is almost 100%reliant on imported fossil fuels for electricity generation,leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.
Electricity Sector Data

Does Saint Lucia need a power supply?

For decades, Saint Lucians have benefitted from a reliable power supply, but at a cost. Our reliance on imported fossil fuels for the generation of electricity has left our small island nation vulnerable to external shocks, due to fluctuations in global oil prices over which we have no control.

How can energy efficiency programs be implemented in Saint Lucia?

Energy efficiency program implementation-- Deploying a program to encourage cost-effective energy efficiency across diferent customer groups in Saint Lucia requires funding,staf,and appropriate regulations. If energy efficiency measures are not adopted,electricity loads will remain higher than projected.

When did Saint Lucia start regulating electricity?

In 2010, Saint Lucia began a process to revise the electricity regulatory framework (last updated in 2006), including the concessionary agreement, in line with national objectives to increase the use of renewable energy. In early 2016, a new independent National Utilities Regulatory Commission (NURC) was established.

Saint Lucia's Day is the feast day of Saint Lucia (also known as Santa Lucia or Saint Lucy), one of the earliest Christian martyrs. It is celebrated on December 13. Saint Lucia's Day, also known as Luciadagen, marks the beginning of the Christmas season in Scandinavia (a region that includes Sweden, Norway, and Denmark).
