SDC10-Box5 series are suitable for 51.2V low voltage ESS. It adopts high safety, high cycle, high reliability and minimalist design. The system can be paralleled, with capacity extended to ...

Good day everyone, I purchased a Shoto SDC10-Box 5 (5.12kWh) 16 Cell battery and need some assistance on the battery settings to use. I have a Kodak OG548 Inverter, I have Solar Assistant and waiting for my cable to arrive. So my question is what settings should I use without the cable and then w...

Unleash the Power of Green Energy Storage with Shoto SDC10-BOX5 Lithium-Ion Battery - Your Reliable Energy Solution. Discover the future of energy storage with the Shoto SDC10-BOX5, a state-of-the-art 5.12kWh lithium-ion battery designed to redefine how you store and utilize energy. With more than 5000 cycles at an impressive 90% Depth of ...

Hi I have a month old installation consisting of a SunSynk8kW inverter, 2x Shoto 5.12 SDC10-Box5 and 5.4kWp solar array installation. I've been really struggling to keep the battery temps down under 30 degrees; nevermind the recommended 25 degrees. Typically it reaches about +-31 degrees each day (the highest was 34.5 degrees).

Lithium Iron Phosphate LIFEPO4 48V 5.12KWH Battery - SDC10-BOX5. This battery is 48V and has a nominal capacity of 5.12 kWh. It is rated for a 100AH capacity and can be used with a boost charge voltage of 57.6V and a discharge voltage of 48V. The battery is compatible with a variety of inverters and can be installed in a rack or wall mount.

My Shoto SDC10-Box5 batteries are currently wall mounted in a vertical position by the installer (see photo). Its just hanging vertically from normal storage brackets. I've also noticed from photos on internet and friends that this is often done (regardless of battery make/model) in South Africa installations at least, it does give a smaller installation footprint so ...
