Capital and expertise from Scatec Solar, KLP and Norfund enabled the construction of Mozambique's first large-scale solar power plant. Central Solar de Mocuba (CESOM) provides over 79 GWh of electricity annually, which is equivalent to the electricity consumption of more than 170,000 households in Mozambique.

The project has been in operation in Mozambique's Zamb&#233;zia Province since 2019, and helped drive a steady increase in the country's solar power generation, which grew from 1GWh in 2018 to ...

Electricity production through solar parks in Mozambique grew by almost 14% in the first quarter of 2024 but still accounts for less than 0.5% of the total, according to official figures previously reported by Lusa. According to the budget execution report for January to March, electricity production at the country's six large solar parks and ...
