Existing solar adopters are looking to add to their current system with solar battery storage. 43% of UK households with solar panels also have an energy storage battery, demonstrating a demand for retrofitting an ESS. Adding storage to an existing solar system is a simple and logical step to take for customers and does not require any changes ...

Similarly, Niue's largest solar array (near the hospital) requires some inverters to be replaced. These are on-island, and replacement work will be carried out in the next few weeks. At this point, we will be able to bring a sizeable portion of solar back on the grid and reduce diesel consumption from running the generators full time.
